### Fair Go: Global Citizens for Social Justice

#### Our Place

Students explore fairness in the context of a shared place in the local community.

Choose a place that is a shared space or facility, for example a park, a beach or a public swimming pool. Choose a public place that is open to anyone.

Use these questions to produce a discussion, debate, text or speech:

- Can everyone in our community enjoy this place? If not, why not?
- Is it a good place that helps people and makes them healthy and happy?
- Does anyone spoil this place? How? Why?
- Does anyone avoid this place? Why?

You could explore discussion further by:

- Drawing the place and annotating it's fair and un-fair features
- Designing improvements to make the place more fair – a place that everyone can enjoy
- Writing a code of conduct for the place

Reflection:

- Was there anyone in our community we left out?
- Did anyone else have different ideas to me?
- Did we just think about people or did we think about plants, animals and landscapes?
